California State Polytechnic College

Emphasis on tomorrow can only be achieved by emphasizing today. California State Polytechnic's philosophy of 'learn by doing' partially fulfills the prerequisite for advancement in the future. As students we now have the opportunity to explore the future by building a solid foundation through academic learning. We now have a chance to make experimental observations of the many roads of life before we make a final decision as to the route we will select. Socially and scholastically, we are endeavoring to better our ideologies and understanding of the world around us. We have within our reach the most instrumental and effective form of preparation to succeed—education. Indeed, we must emphasize today if we are to succeed tomorrow.

In Tribute

In 1933 the State Bureau of Agricultural Education Chief, Julian A. McPhee, came to a school of less than 200 students. Plans were afoot to convert the two-year vocational institution into a reformatory, but McPhee had a dream: to build a school to instruct farmers for California's fields and agricultural education teachers for her high schools. Over the next 33 years, McPhee was to win his initial dream and, as a by-product, to build new dreams and eventually establish a four year degree granting college complex which will have a 1970 combined enrollment of over 22,000.

But the fulfillment of his dreams was an arduous task and it was not until 1942 that he saw the first bachelor's degree granted. After World War II, his dream grew and he led the burgeoning college from the fields of agriculture and industry into the sciences, engineering, business and the arts.

Yet McPhee's dreams also had depth. In 1938 Charles Voorhis gave the state his 157 acre ranch near San Dimas, and in 1949 the Kellogg Foundation donated the 816 acre Kellogg Arabian Ranch near Pomona. On the latter, McPhee led the formation of a second campus to disseminate what was fast becoming known as the "McPhee brand" of education: the "learn by doing" philosophy.

This philosophy was a direct outgrowth of his early experience with agricultural education. Over the years he came to believe that the theoretical side of education was not enough; he would send out graduates trained in practical means of getting things done. His approach to education has always been controversial among the nation's educational theoreticians, but now after years of practicing it, he points with pride to many graduates who are leaders in agriculture, engineering, business and the sciences.

Why has McPhee spent the greatest portion of his adult life pursuing his dream? He answers: "There has been nothing more rewarding in my life than seeing young people develop into self-reliant adults capable in their fields and trained to become leaders."

In Dedication

Having devoted thirty-three years of his life toward the growth and development of three campuses of California State Polytechnic College, President Julian A. McPhee now brings to a close a glorious span of dedicated service to the support and progress of our educational system. Under his guidance, a tradition has been established . . . encompassing the values of the Cal Poly philosophy.

To him we dedicate the 1966 El Rodeo as a tribute to his accomplishments.

President's Message

For several years I have had the privilege of preparing a statement for the annual publication of the EL RODEO. As I do so this year for the final time as President of Cal Poly, I want to take this opportunity to say thank you to all of those faculty, staff, students and alumni who have made this past third of a century such a rewarding experience for me.

It isn't often that an individual has the opportunity to see his dream become a reality. And yet, this is the wonderful experience that I have had as President of Cal Poly. In 1931 when Cal Poly was placed under the direction of the Bureau of Vocational Education under the State Department of Education, and later in 1933 when I was asked to become President of Cal Poly, I visualized it as an opportunity to develop a school dedicated to occupational education.

Never in my wildest imagination did I think that it would ever reach the size that it is today. Nor did I conceive that our educational philosophy would have the influence, not only in our State but throughout the nation and in foreign countries, that it enjoys today. Like anything that is worthwhile, acceptance of our program did not come easily. There were times during this last 33 years when it appeared that all we had worked and fought for would be lost.

Through the dedication, however, of our faculty and staff, and the success of our students, our program gained acceptance and we continued to grow. I can remember planning for an "ultimate" enrollment of 400, then 1,000, then 2,000 and finally 4,000 students. Now the Trustees have established an "ultimate" of 12,000 students on this campus.

From one campus with 125 students, 24 faculty and staff members, and an annual budget of \$75,000, to three campuses with nearly 12,000 students, nearly 1,600 faculty and staff members and an annual budget in excess of \$14,000,000, is growth almost impossible for me to comprehend.

Though my responsibilities as President have taken almost every moment of my life for this past third of a century, the experience that I have had, the many friends that I have met, and above all the many thousands of students with whom I have had the privilege of becoming acquainted, will provide me with fond memories for the rest of my life.

To all of those who have come and gone over these years, and to all of you, I want to offer my sincere gratitude for everything that you have done to make Cal Poly what it is. I know that Cal Poly will continue to build its reputation; I look forward to watching its progress.

Sincerely,

A handwritten signature in cursive script that reads "Julian A. McPhee". The signature is written in dark ink and is positioned above the printed name and title.

George Soares—ASI President

President's Message

Education is the key to understanding and is a lifetime process. But with this understanding comes numerous responsibilities. The college student must learn to accept these additional burdens. With this acceptance comes many rewards. In the world of today, with its great technological advancements, the necessary leadership comes from those who are educated. With a solid educational foundation, the leadership base will also be strong. This foundation is developed in the classroom, in dealings with fellow students, and in participation in student government and activities. Each day every individual should strive to develop this educational foundation and understanding. The opportunities are great and have been given to each student. He should, in return, make the best of them.

Probably the most important single publication for student entertainment at Cal Poly is El Rodeo. Each year, the editor and staff of the Cal Poly yearbook strive to organize and present an Annual that will be enjoyed by all who read it. Preserved in the pages of this Annual are the records of the year's story of campus life for its graduating seniors, activities, and accounts of the most important functions of the academic year told through multiple color, on-the-spot photographs.

In addition to this, the committee is responsible for the coordination of the College Hour programs in conjunction with any school group wishing to perform.

Dance Committee

The College Union Dance Committee coordinates the overall schedule of dances held on campus, shares financial responsibility with sponsoring organizations, and sponsors dances of their own for the benefit of the entire student body. Of the dances sponsored by the committee, the most outstanding is the annual Christmas Formal.

The efforts of this committee have been well rewarded in many a memorable evening.

College Union Board

The College Union Board, composed of the chairmen of the ten committees in the College Union plus the College Union General Chairman, the Vice-Chairman, the two Secretaries—Corresponding and Recording—and the Treasurer, is the policy-making organ of College Union. It is responsible for deciding overall scheduling events, general matters of interest to the whole College Union, as well as occasional trivia of various degrees.

The primary purpose of the College Union Public Relations Committee is to publicize all activities sponsored by CU committees. Through such devices as posters, stunts and a column in the newspaper this purpose is accomplished.

The committee itself is divided into several sub-committees to carry out the various means of publicity. This committee could perhaps be called the "Voice of College Union."

Social Committee

FUN! FUN! FUN! This describes the CU Social Committee. As one of the most active committees, it adds the "spice" to college life.

The "Playboy Party," "Las Vegas Night," and an "Indoor Beach Party" are just a few of the many functions sponsored by the Social Committee. It also works with International Week in creating goodwill with friends from abroad.

Thirty years ago the first volume of "Who's Who in America Colleges and Universities" was published to honor college students whose scholarship, service, and general aptitude warranted special recognition.

And so it does today. Students are nominated by the authorities at their schools and are selected by a committee consisting of faculty members, administrators, and students.

The award is the highest one presented to any member of the Junior, Senior, or Graduate Class.

For a student to qualify for this award, he must have a grade point average at least equal to the average of the College, and have participated in at least three major campus functions for which he has received activity points.

The men and women pictured on these pages are those who have given of their time so that all students at Cal Poly could enjoy the many activities on campus.

The students of Cal Poly are proud of those who have qualified for this honor, and it is with pride that we present them in this section of El Rodeo.

Tough Schedule Corrals the Mustangs

Against a tough group of opponents, including five nationally ranked schools, three conference champions, and two bowl-bound teams, coach Sheldon Harden's gridders finished 1-4 in league action and 2-8 for the year. The 1965 Mustangs' chances for a winning record were spoiled by four narrow defeats.

Poly opened the season by nipping San Francisco State 21-20 in a come-from-behind thriller. The Mustangs mauled Valley State 33-0 on television for their only conference victory.

Near wins against national powers, including two Bowl teams, showed the Green and Gold's improvement over 1964. Poly's fourth quarter comeback in the Fresno State game fell just short. As the final gun sounded, the Mustangs, trailing 20-14, were only twenty five yards from another score. Stopped twice deep in CSC Los Angeles' territory during the last minutes, Poly dropped a 7-3 decision to the nation's second rated small college.

Honored as the team's outstanding performers were Fred Strasburg, Jim Fogarty, Chuck Merino, and Stan Arnold. Players of the Week were, Bill Schwerm, Dave Edmundson, Jack Wool, Tom Everest, Frank Bentz, Strasburg, Fogarty, Arnold, and Merino (twice).

Varsity: Coaches, Sheldon Harden, Tom Lee, Walt Williamson, Vic Buccola, Walt Mince. Team: Arnold, Bentley, Bentz, Carlovsky, Cartwright, Campbell, Creighton, Dalton, Doerr, Durant, Edmundson, Elliot, Everest, Esparza, Fenske, Fogarty, Forster, Hasson, Johnston, Kuhl, Linhares, Lindeleaf, Lemon, McCurry, McPherson, McWilliams, Maronto, Meadows, Merino, Mesecher, Montano, Neugebauer, Overbeck, Parks, Paul, Ralston, Ramsey, Rench, Raymond, Randall, Roberts, Schwern, Smith, Sommers, Strasburg, Stutzman, Sweeney, Sweeney, Taylor, Terrell, Watson, Welch, Woods, Wool, Wright, Zollner.

Reversing their 1964 record, the freshman gridders rambled to a 4-1 season. The Colts used a potent offense and rugged defense to halt their opponents. Head coach Ed Swartz felt his team "worked together well" in producing a winning record.

The Poly yearlings opened their schedule by thumping the UCSB frosh 19-14. A strong running

attack and hard tackling, which caused eight UCSB fumbles, paved the way to victory. Playing their finest game in the final contest, the Colts trampled the San Jose State frosh 32-14. While the Poly offense tallied six touchdowns the defense bottled up the Spartababes, allowing scores on a punt return and interception runback. Other Colt wins were over Fresno State Frosh 13-6, and Cuesta Junior College, 26-7.

A tough Hancock Junior College eleven gave Poly its only setback, 41-21. Swartz blamed the loss on a defensive letdown caused by uncorrected mistakes.

Long-throwing quarterback Ed Rosenborough was voted the 1965 Oilcan Award. Decided by the team, this honor goes to the player most responsible for keeping the team moving. Other freshman standouts were J. Colletto, M. Paolini, and W. McConico, running backs; D. Sverchek, offensive end; B. Moriarty, defensive end; and G. Barnett, linebacker.

Bottom Row, left to right: Ron Higgins, Al Nerell, Bill James, Don Enstrom, Paul Atherton, Bob Wharton. Top Row: Mgr. Steve Owens, Ken Baker, Mike McHenry, Barry DeGroot, Jeff James, Rich Johnston, Dennis Lyons, Frank Procella, Fred Reich, Coach Dick Purcell.

Cal Poly's cross country team under the direction of Coach Richard Purcell had a very successful season. They were undefeated in dual meets, and their overall record was 18 wins and 9 losses. This truly is a remarkable and surprising accomplishment considering that the team consists mainly of freshmen. There were six lettermen on the team: Berry DeGroot, Ken Baker, Al Nerel, Frank Procella, Jeff James, and Dennis Lyons. All these men will be back next year with experience under their belts and in readiness for an even better season. This year their meet record is: the Long Beach Invitational in which they placed third, the Hancock Junior College meet in which they also placed third, the Fresno State Meet which they won 27-28, the Hancock Junior College Meet which they won 28-30, the Mount Sac Divisional Meet in which they placed fourth, the Westmont Meet which they won 27-29, the U.C. Santa Barbara Meet which they won 19-39, and finally the conference meet in which they placed fifth.

Mermen Place Third at State Tourney

Coach Richard Anderson's water polo-ists finished the season with ten victories and eight losses. Leading the Mustangs to their third place position at the State Tourney were Mike Nero, team captain, and Tom Ruggles, who earned a position on the all-tournament team.

Prospects for next year look good with all but two of this year's lineup returning.

Cal Poly's Mustang wrestlers won their fourth consecutive CCAA championship when they humbled the Fresno State Bulldogs, 23-5. Both teams had gone undefeated in California competition before the title matches. The win gave Cal Poly a perfect 5-0 dual match record. It was the fourth consecutive time Cal Poly has won the league title on the dual match.

Robert Bostrom
Head of Housing

Robert Bostrom, campus housing coordinator, looks forward to the proposed new residence halls which will be under his supervision. A graduate of Cal Poly, former graduate manager and unofficial counselor to "living-in" students, he is known widely on campus and is a familiar visitor to dormitories.

New Proposed Residence Halls

Plans for these new residence halls are in the final stages of completion.

Located on Grand Ave. where the present Ornamental Horticulture units now stand, the new residence halls will be under construction by the Spring of 1967 and should be completed within 18 months.

"The residence halls have been planned to fit the needs of Cal Poly students. We have not borrowed ideas from any other college," said Robert Bostrom, housing coordinator.

A federal loan of nearly \$3 million has been reserved for building the first increment of residences. The architecture and engineering has been done by Falk and Boothe of San Francisco. No money or plans have been provided for any additional increments of halls or a cafeteria, but space has been allocated for future buildings as the need arises.

Sing Out

'66

"Everyone's the same in God's eyes . . . There is hope . . . Ride, ride, ride until the truth is told . . . Freedom isn't free . . . What color is God's skin? These passages from some songs told part of the message of Sing Out '66.

Sing Out, which may be described as a new kind of musical explosion, is comprised of 126 students from 51 high school and college campuses in 18 nations. Young people presented the show without salary. They have sacrificed college scholarships, personal possessions, and some even have sold their cars to take their idea across America.

Making its debut in the Men's Gym, the Sing Out cast, led by the Colwell Brothers, presented their case for a stronger America through song and skit. They sang out against the "protestor", the "all talk and no action man", the apathetic. They applauded the person of action who will do something to protect his freedom.

The program itself was enthusiastically received by its Cal Poly audience of about 1,600 persons. The cast went through at least four encores at the urging of the audience. The presentation was superb; the feeling they put into each song, self-evident. It's small wonder they drew 15,000 persons at the Hollywood Bowl, dazzled the anti-American college students in Japan, and received heaps of praise from numerous U.S. Congressmen.

Summing up the whole purpose of Sing Out '66 is this statement from a member of the cast: "We are out to show the world that free men and women can be the most convinced, most enthusiastic, in fact the most revolutionary people on earth. We want to see people raise up out of their rocking chairs of cynicism and complacency and ride with us 'whole-hog' for a new tomorrow."

All Poly

Students from the San Luis Obispo campus trekked to the Pomona campus during a Winter Quarter weekend to meet and mix with fellow Polyites at the "Kellogg Ranch" branch.

Next year the two campuses will be under separate State Colleges so this year's visitation may be the last one.

Weekend

All-Poly Weekend was staged this year on the Pomona campus of Cal Poly, the weekend of January 28. Purpose of the event was to bring closer the two campuses of Poly, which are separated by over 200 miles.

Students from each campus took part in the activities which ranged from skateboard contests to a performance by Glenn Yarbrough, famous folk singer.

Ben's Week

Bob Hornberger crowns Printing Week Queen Marilyn Ross.

W Engineering e k

Engineering Week, held this year on the week of Feb. 20-26, was highlighted by the speech of correspondent John Morley. His appearance climaxed a week of displays and films put on by the various engineering departments. Mrs. Donna Whitmore was chosen as Mrs. Engineering at a reception held by the Engineering Council.

International Week

Week of Reverence

The theme of this year's Religion in Life Week, "Who's in Control?", featured discussion of the relationship between science and religion.

To help discover the answer to the theme, many seminars, bull sessions and speeches were held, including topics such as "The Survival of Humanity — Thoughts of an Atomic Scientist," birth control pills, life in the twenty-first century, ethics, and "The Family's Place in the Jewish Religion."

RILW was planned to interest all students regardless of their religious beliefs.

"Poly Royal" at California State Polytechnic College's San Luis Obispo campus is one of the most jam-packed collegiate activities in the West, occurring on the last weekend of April each year.

Poly Royal is an Open House, a Display of Student Projects, a Welcome to Parents and Friends, a three-day "County Fair on a College Campus." It is the one time of the year that Cal Poly's 3000 acres is overflowing with visitors, alumni, prospective students from high schools and junior colleges, and with fun, festivity and friendliness all wrapped up in a big package that has been in the preparatory stage for months.

Guests at Poly Royal come from every corner of the state. Attendance has been estimated at 25,000 to 30,000, but who counts? Every building on campus is a beehive of action—"learn by doing" on display. Architecture, the glamor department, always leads the displays with demonstrations and portrayals of student programs, but many other departments are right behind. Technical Arts is high on the list with carnival and business motifs combined. Business Administration captures the crowds with its creative displays and demonstrations. All instructional Divisions rate high in going all-out to please crowds.

In Agriculture the Ornamental Horticulture department holds forth with an annual Flower Show that draws the fancies of women particularly. Poultry's baby chick display appeals to children. Men are attracted to Electronics, Printing and Agricultural Engineering shows. Ladies have a nail-hammering contest.

Poly Royal all began in 1932 when the Future Farmer chapter in San Luis Obispo and the 4-H livestock exhibitors were preparing for the South San Francisco Livestock Show. Cal Poly was, at that time, known as the "Home of Future Farmers". This preparation was the forerunner of Poly Royal as it is known today. The livestock are still here—dairy cows, Angus bulls, White-face Herefords, Brown Swiss. The Future Farmers are still here too—and in 1966 they include sons of fathers who were Poly students in similar programs "way back when".

The first Poly Royal in 1933 resulted in a profit of \$14.28 with 300 persons in attendance. In 1966 the growth is hardly measurable, but it is successful in every way—financial, attendance, prestige, and a public relations event for the college. Example: each year the barbeque at Poly Royal draws more than double the crowd of the entire Poly Royal in that first year.

The superintendent of Poly Royal in 1966 is the son of a Poly Royal superintendent of many years back. Queens of Poly Royal might be the daughters of former Poly Queens except that prior to 1965 there were no co-eds at Cal Poly. But they did have queens—"borrowing" them from San Diego State, Santa Barbara, and other co-ed colleges.

Maybe the Queen of 1966 Poly Royal ought to be Mrs. Alma McPhee, wife of the College President who is retiring this year after 33 years as Cal Poly overseer. She raised six daughters in her campus home and she has reigned as graciously as any royalty.

Tradition built Poly Royal. Tradition is sure to keep it high on the ladder of successful college events.

Since I am the editor of the 1966 El Rodeo, I have been told that this is my page, to do with as I please. Since every other page in the book belongs to the staff members, and it is really they who do the work, I seem to be at a loss for words. After all, the only thing which I do is check and approve the pages as they are turned in to me, the real brain work and creativity come from the staff members. Well then, I think that I will start with the staff.

There are many students at Cal Poly to whom I am deeply indebted for making this book outstanding. To these students, I owe a great deal of thanks. It is these students who put out this book, not I, and they have done a terrific job of it. I cannot stress this point too far, for as I sit here I cannot help but think of all of the many experiences I have had as editor. I remember the first meeting in the fall quarter. The only person I really knew was a buddy of mine who I had talked into joining the staff. All of these new faces have grown into friendships and memories which I shall never forget. Yes, to these students I owe a great deal, and it is to them I humbly say THANK YOU.

Next to the staff, I could probably write a book on the numerous other people who have, in many ways, given me their full support in order to create an outstanding book. To Mr. Viga Hall, Taylor Publishing representative: Viga, thank you for all of the time which you have devoted to making the trips north to check on the production of the yearbook. To Dunlap-Turney Photographers: A special thanks for the tremendous job done on the senior pictures which appear in the Senior Section. To Mr. Loren Nicholson: Thank you for the helpful hints you gave me. To Miss Nanci McGuire: Nanci, you don't know how proud I am of the art work you have done and the cover design. To Paul Sultzbach: Well, I can say that I will really miss you, thanks a lot for taking care of the finances this year. To the members of the Board of Publications: Thank you for electing me to this position. To Mr. John Healey: A special thank you for the excellent color pictures which appear in the front of the book. To John Giusti: He is the member I talked into signing up for the class and who later became my able associate editor. To the numerous administrators who gave so generously of their time so that El Rodeo might give a well rounded picture of the persons who make this college tick. To all of the Maxwell's who approved me as editor and to some who went further to help throughout the year. To George Soares: Thank you for tackling some of the problems of El Rodeo so it may grow better year after year. To Chuck Smith, Monty Odett and Phil Minjares: My roommates who, without their listening to my gripes, I could never have accomplished this job. The last person I have chosen to thank is our advisor, Mr. Vince Gates. All I can say is that without your ideas and drive which never ceased throughout the year, I can honestly say that this book would not have been possible. THANK YOU.
